

Family Fun Home Activities

B2

Week of 5/11/2020

ART

Make your own homemade scale

- 1.Coat hanger/string/2 cups
- 2.Poke holes thru the paper cup
- 3.Put the string thru the holes of the cup
- 4.Attach the cup to the coat hanger

And have fun measuring things around your house

MATH/SCIENCE

Comparing Weight

Demonstrate how to use the balance or homemade scale. Let children compare objects and Let children take turns picking two items, predicting which is heavier, then placing them on the scale. Challenge children to make the scale balance with objects of equal weight. guess which one is heavier. Let children take turns picking two items, predicting which is heavier, then placing them on the scale. Challenge children to make the scale balance with objects of equal weight.

LETTERS AND LETTER SOUNDS

Letter Sort (“Oo”) and (“Ss”)

Use the Letter Sort Routine to help children distinguish letter shapes and recognize the shape of the letters “Oo” and “Ss.”

PLAY

Take this opportunity with the weather getting nicer to go outside and take a walk and see what nature has to offer. Do a treasure hunt where everyone has to find a certain object

Ex. A rock or a certain color leaf and bring inside and weigh it on your home made scale

READING

www.getepic.com

WRITING

Write the letters O and S upper case and lower case and have the children copy them on a piece of paper or with soap in the bathtub also they can do this in the dirt or with chalk.

The weather is getting nice and if possible you can bring the learning outside if possible

Please send any pictures to

jduran@pw4c.org

Listening

Give children various directions and have them complete making the next a little more complicated than the first.

Make a game out of it giving them a chance to give the directions and then you following them.
